

# Environmental Policy

## Our environmental vision –

**An environmentally sustainable railway, an environmentally responsible culture.**

### Purpose

This Policy statement establishes RailCorp's environmental commitments and provides the basis for setting our environmental objectives and targets.

### Policy statement

RailCorp is committed to operating in a manner that respects the environment, the people we employ and the communities we serve. We will strive to continually improve our environmental performance and minimise pollution associated with our activities. RailCorp will pursue policies that protect the global and local environment and that are consistent with the principles of ecologically sustainable development.

RailCorp is committed to:

- Minimising our use of natural resources.
- Adhering to the principles of ecologically sustainable development.
- Instilling an environmentally aware and responsible culture within the organisation.
- Complying with applicable environmental legislation and regulations, and addressing government policy.
- Providing leadership, direction and the necessary resources to effectively manage our environmental impacts.
- Implementing environmental risk management at operational and strategic levels to minimise our environmental impacts.
- Providing an audit and review framework to achieve continual improvement in environmental management.
- Establishing objectives, targets and key performance indicators to monitor our environmental performance and drive improvement.
- Forming constructive partnerships with government, industry and the community on environmental issues.

To achieve the above, RailCorp will implement and maintain an Environmental Management System that will cover RailCorp's key environmental risk activities and provide the framework for meeting our environmental commitments.
